# NEW MOON IN SCORPIO RITUAL

This is a true 'Witch's Moon'! Scorpio is the sign of transformation, magic and power, and doing a ritual over this time can yield wonderful results.

Plus, the electric energy of Uranus is infusing this New Moon with change and excitement – so be careful of what you ask for! Things might not turn out exactly the way that you intended them to.

Neptune also lends this New Moon a spiritual, divine energy and helps make it easier for you to get in contact with your intuitive desires and dreams.

This planet also has the reputation for being the one most connected to the realm of the Gods. This New Moon really is full power!

## HERE'S WHAT YOU'LL NEED:

A 'cauldron' of some kind – something that can hold about a cup or two of water

Clean and fresh spring water | A spoon | A pinch of ground cinnamon

Patchouli oil | A few blocks of dark chocolate | A sprig of coriander

Pen & paper | Black or red candles

## STEP 1

Time to tap into your inner witch or warlock! Create a safe space of yourself, and light your candles. Arrange your 'cauldron' somewhere where it won't be knocked over or spilt. Seat yourself in front of your cauldron, take a deep breath – or ten – and close your eyes to ground and center yourself. Notice if any powerful emotions are coming up for you and just acknowledge them.

## STEP 2

Open your eyes and get ready to do the ritual. Pour your spring water into the cauldron. Then, take the cinnamon and give it an intention. For example, you can use this to symbolize the desire for more warmth and passion in your relationship or more spice in your career.

Sprinkle it into your cauldron and gave it a stir. Repeat the intention as you do it to lend it more power.

## STEP 3

Now, dedicate an intention to the Patchouli oil. Perhaps you'd like a bit more depth in your life, or more financial security. Drop a few drops into the cauldron and give it a stir, keeping your intention firmly in mind.

## STEP 4

Take a block or two of chocolate and also give these an intention. You're getting the hang of it! Maybe you need sweetness with a family member, or need to start caring for yourself better by eating healthier food. Crumble the block/s into small pieces and drop them into the cauldron. Stir, repeat.

## STEP 5

Finally, take your sprig of coriander and create an intention around it. Maybe it's more growth you want, more nature, or more flavor in life. Add this final ingredient to your cauldron and give it a whirl.

## STEP 6

If you like, you can now write down each intention you set so that it's remembered for the future or more solidified in your mind. Take the cauldron and go out into your garden or find a plant that needs water. As you pour it out, remind yourself of each intention that you set. Visualize these intentions rowing and manifesting over the next few months.

You're all set!
