# A NEW MOON IN AQUARIUS RITUAL FOR FINDING YOUR TRIBE

This is a very exciting New Moon indeed! Happening at a time where there's a party of planets in the inspiring sign of Aquarius. This really is a period where we can invite sweeping, exciting and liberating change in our lives!

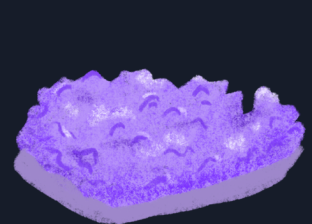

Aquarius rules community, activism, hopes, dreams, wishes and individuality. This sign is all about personal freedom, and about educating ourselves. It's a communicative, group-focused New Moon, so it's a great time to set intentions to find your tribe!

Whether you're looking to go off-grid, or find people that resonate to your frequency, this Aquarius new Moon is all about networking. New Moon intentions take about six months to evolve, so mark your calendar for August, when you'll see the results of your magic!

In honor of this New Moon, here's a special crystal grid ritual to help manifest your dreams for community and tribe in the coming year

## HERE'S WHAT YOU'LL NEED:

Some incense

Crystals - preferably amethysts and plain quartz of all sizes.

A table or altar space

Some lavender

A blue candle & cloth

Pen & Paper

## STEP 1

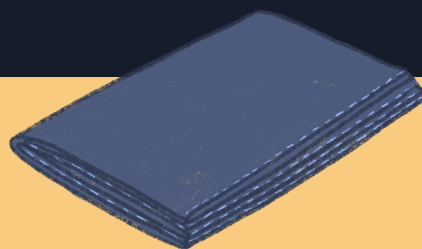

First, tap in the Aquarius energies by doing a short breath meditation: you can inhale for four counts, hold for two counts, and exhale for four counts.

This is called a “box breath” and is very centering and calming. Aquarius is also an air sign, so tapping into this element using breath is key!

## STEP 2

Create your altar by laying out the cloth and having your crystals and lavender to the side. Light your candle & incense, and take a deep breath.

## STEP 3

Now, arrange your crystals in a “grid” format. This can be completely creative, so take your time with it, and allow it to flow.

At the same time, imagine your soul tribe. Imagine the kinds of people you wish to join with, or the type of community you want to have. Imagine that each crystal is another person to add to the circle.

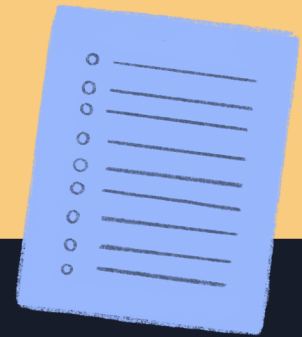

## STEP 4

Now you can place sprigs of lavender within the grid, thinking about the qualities of the community or circle you want to manifest. Such as kindness, consciousness, a love of animals and so on.

## STEP 5

If you like, you may now write down what came up in your mind as you created your grid. This helps to seal the intention and to remember what you wished for.

## STEP 6

Now, close your eyes and imagine this all coming to life, and manifesting in the next six months. Imagine it as if it's already happened, and say a prayer of gratitude for what's to come.

## STEP 7

Leave this beautiful crystal grid on your altar as long as you like – you can keep coming back to it and reminding yourself of what you wished for.

Don't be surprised if your magic works quickly! If you want, you can now arrange to get together with some friends to close out the ritual, as Aquarius loves to do things in a group!
